

WILSON UNDECIDED AS TO HIS CHOICE

GOVERNOR'S MIND AN "OPEN BOOK" AS TO DEMOCRATIC COMMITTEE CHAIRMANSHIP.

MEETING AT CHICAGO

Western City Was Chosen After New York Had Been Announced Following Numerous Protests.

See Girl, N. J., July 5.—Governor Wilson's mind still is like an "open book" to quote him exactly on his choice for chairman of the democratic national committee. He said today he would not decide until the last minute.

"With regard to things of that sort," he said, "I never make up my mind until I announce my decision. When there is a question like this I decide I like to see all arguments and then argue it in my own mind and at present my mind is in the midst of the argument."

William McAdoo, of New York, who has been mentioned as a possible choice of Governor Wilson for treasurer of the committee, had a long conference with the governor during the forenoon. At his conclusion the governor said Mr. McAdoo's name had not been suggested to him in that connection and he had no choice at present for the place.

Later in the day Governor Wilson had a talk with Josephus Daniels and Robert F. Hendrich, national committee members from North Carolina and New Jersey respectively. Governor Wilson said he asked Judge Grosvenor, chairman of the democratic state committee of New Jersey, to invite former United States Senator James Smith, Jr., and James R. Nugent to visit him here next Monday.

Further details came out today of how Chicago instead of New York was selected as the meeting place of the democratic national committee July 15 at the suggestion of Governor Wilson although several eastern committee members had agreed upon New York. The governor asked that Chicago be selected after he had been advised by southern and western committee members that members would be represented by proxy at New York. These men, he was told, could and would be present at Chicago.

When Norman E. Mack, in his capacity as chairman, first announced that New York had been selected, Josephus Daniels of North Carolina and two western committee members went to Mr. Mack.

"It's a poor choice," they told him. "The western members won't have time to get home and come back to New York."

"Of course," Mr. Mack replied, "I have no choice but to announce the decision as chairman. Most of the men tell me they prefer New York." So Mr. Daniels laid the case before Governor Wilson.

"One-third of the committee will be represented by proxy if we meet in New York," he told the nominee. "That would not be right," commented the governor. "We want them in person."

"Who would hold those proxies?" "We don't know," said Mr. Daniels. "Then it won't do," said the governor. Presently the governor sent for Mr. Mack and suggested the change. The committee was again canvassed and Chicago was chosen.

CONVENTION OF KEYSTONE PARTY IN PHILADELPHIA.

[SPECIAL TO THE GAZETTE.]

Philadelphia, Pa., July 5.—The Keystone Party, which has for its mission the riddance of Pennsylvania politics of corrupt bosses and machine methods, began its state convention in the Colonial theatre in this city today with a full attendance of delegates. The purpose of the convention is to decide whether the Keystone party shall place its own state ticket in the field this year or endorse the candidates of the old political parties. Reports have been circulated to the effect that the Republicans might support the new leadership of William E. Miller, but sentiment among the delegates appears to be strongly opposed to such a course. According to D. Clarence Gibbons and other prominent leaders the Keystone party is more likely to endorse the Democratic state ticket headed by William H. Berry, who exposed the colossal cash graft, as the candidate for state treasurer.

SUBMITS A BILL TO REMEDY THE EVILS OF PRIMARY SYSTEM

Representative Norris of Nebraska Has Plan to Break up "Steam Roller Machinery."

[BY ASSOCIATED PRESS.]
Washington, D. C., July 5.—Representative Norris of Nebraska, progressive republican, today introduced a bill which he declared would remedy the evils of presidential primaries. In a prepared statement he declared that "recent events clearly have demonstrated how possible it was for a well regulated and well oiled political machine to trample upon the wishes of the rank and file of any political party."

The Norris bill provides for primaries on the first Tuesday of May in the year a president is to be elected; and for a national convention on the fourth Monday in June of that year in which the representation would be based upon the strength of the different political parties in the different states.

The Norris bill would provide for the election of a delegation to the convention at the primaries and would permit voters to express a first and second choice for presidential candidates.

House Adjourns.
Heat and reaction from the recent national conventions have combined to wear down the nerves of the members of the house and that branch of congress today adjourned after a half hour's ineffective work.

"We will get through before the end of the month," said Representative Sherley of Kentucky, leading demagogue member of the house committee on appropriations today. The fact that the senate has failed to act upon nine of the appropriation bills, the pending impeachment proceedings against Judge Archibald, and the Stanley steel trust investigation report did not cause Mr. Sherley to change his view.

Wait Specific Charge.
The proposed congressional investigation of the row in the treasury department between Secretary MacVeagh and former Assistant A. Bland Andrew, may not come about unless Mr. Andrew makes some specific charge against Mr. MacVeagh.

Soon after the senate met today, however, Senator Meyers waived his right to speak that the naval appropriation bill might be taken up and will speak tomorrow.

SOME BODIES STILL ARE UNIDENTIFIED

MARINES AT PANAMA IN DRUNKEN BRAWL; AFFAIR IS SERIOUS

One American Killed, and Eleven Others Including Six Infantrymen Seriously Injured.

[BY ASSOCIATED PRESS.]
Panama, July 5.—The report of a serious brawl between the Panama police and a number of United States marines while the Americans were celebrating the 4th of July last night, is confirmed. A fight occurred late in the evening with the result that one American, R. W. Davis, was killed and two American marines and six soldiers belonging to the 10th infantry regiment as well as two American civilians were wounded. The wounded men are now in Ancon hospital. Two Panama police also were wounded. The United States legation is investigating the affair.

Makes Report.
Major Smedley D. Butler, commanding the marines at Camp Elliott, Panama City, has reported that eight soldiers of the 10th infantry, two marines and one civilian were seriously wounded yesterday in a fight with the infantry men will die. Major General Wood, chief of staff, has sent a telegram to the commander of the 10th infantry requesting a full report on the affair.

May Be Serious.
Washington, July 5.—It has been alleged that the marines here suspect that what was at first believed to be nothing more than one of the common rows peculiar in the "red light" district of Panama may actually have a very serious foundation and in a way, be connected with the political situation. Adherents of the "Pocras" cause all along have insisted that the Panama police were bitterly hostile to all Americans and resentful of the presence of American commissioners at the recent election to insure fair dealing.

Americans Badly Treated.
It has been alleged that American sailors have been uniformly treated with the greatest harshness by the police. It is recalled that a year or two ago one American blue-jacket deliberately was murdered and several others injured severely by the police for which the Panama government was obliged to pay an indemnity. The elections just held in Panama though purely municipal have resulted in a demonstration of such overwhelming support of Pocras as candidate as to forecast defeat of the Arosemena party at the national election on July 14.

It is believed that the government will strongly resist being disposed by the Pocras party and it was reported today from Panama that Arosemena was sending his brother Carlos post-haste to Washington to protest against American supervision which Arosemena insists prevented the fair election it was intended to insure.

TAFT LAUDS BRAGG AS WISCONSIN HERO

President in Letter to Darlington Friend of General, Tells of Noble Qualities.

Washington, D. C., July 5.—President Taft has sent to Darlington, Wis., a letter in which he pays high tribute to Gen. Edward S. Bragg, who was still in Fond du Lac recently.

The letter was written at the request of James E. Maynard, an expert proofreader in the government printing office. Mr. Maynard served in company D, First Wisconsin Infantry, in the war with Spain, and his home is in Lafayette county.

The letter was sent to Capt. P. H. Conley, president of the Lafayette County Historical society. It will be deposited with the historical exhibit at Darlington, one of the largest in Wisconsin. The exhibit contains letters from Theodore Roosevelt and Admiral Dewey, also secured through Mr. Maynard.

In his letter to Mr. Maynard, President Taft says:

"You say that Gen. Bragg was deeply loved by Badgers and his memory will be highly respected in Wisconsin. Certainly these statements are and ought to be true. Gen. Bragg was one of those men who had courage and the power of leading men such as to instill in the regiments and brigades he commanded the faculty of earning victories in the field. His character was sturdy and upright, and his remark that the loved Grover Cleveland for the enemies he had made, indicated these characteristics."

"I knew Gen. Bragg when he was consul general at Hongkong, and met him at various times since. He was one of Wisconsin's heroes, and the state will do well to cherish his memory."

MEXICAN REBELLION DRAWS TO A CLOSE

GUERRILLA WARFARE WILL BE MOST IMPORTANT DISTURBANCE IN COUNTRY NOW.

REBELS MAKE RETREAT

Have Abandoned Chihuahua, Retaining Juarez As Stronghold.

El Paso, Texas, July 5.—The revolution in Mexico, in so far as its military campaign of concentrated forces is concerned was by today's movement of the rebel army shown to have been ended and in its place there was substituted a gorilla warfare which threatened wide spread devastation in Northwestern Mexico.

Five troop trains are bearing the retreating insurgents from the vicinity of Chihuahua to the city of Juarez, opposite here, and before the day is over it was expected that most of the rebels would be retreating south from Juarez a distance of seventy-five miles to Casasgrande, from which point it was expected to effect an entrance into the rich mining state of Sonora.

Having abandoned Chihuahua to the federals, the rebels destroyed all the bridges between Bachimba and Sausez, a small station at which the rebel outposts are gathered. The evacuation of Chihuahua means that the zone of rebel control will be greatly diminished; Juarez being practically the only fortified position that remains.

General Pasquel Crozzo, the rebel chief spent the night at Sausez, but was expected to be in Juarez today to direct the movements of the band of the rebel army into which it is now being disintegrated. Juarez is at present being disintegrated. Train loads of reinforcements have been sent there within the last three days.

"Though the invasion of Sonora means a rambling campaign in the mountains, the rebels most of the mountaineers, believe themselves equal to it. The revolution in that form, they say, will prove more vexatious to the government than that of the ordinary campaign."

To check the invasion of Sonora, the Mexican government is moving forces from Aquadrieta and towards Sonora. July 4,000 men are being sent to intercept the rebels.

General Sanjines left Aquadrieta today for Frontera, to take command of the main column and while the forces in the district of Sausez are engaged with the rebels on the state line between Sonora and Chihuahua, General Huerta is believed will move up from the city of Chihuahua towards Casasgrande and attack the rebels from the rear. The next battle, if any occurs, will probably be at Casasgrande.

Railroad Probably.
At General Huerta's Headquarters, Bachimba, July 5.—The brief resistance of the rebels which proceeded their retreat caused them but little loss of life but the destruction of the railway for forty miles to Chihuahua is so extensive as to prevent the arrival of the main column of the federals at the capital for at least four days.

HERE IS A SHOPPING TOUR THAT NEEDS A MAN'S ATTENTION

By J. R. HAMILTON
Former Advertising Manager of Wanamaker's, Philadelphia.

We can pass most every emergency up to our wives, but once in a while our wives rebel and pass it back to us. We can allow our underwear, our hosiery, our shirts, and (where we haven't much to put into them) even our hats to be purchased by family choice; but when it comes to our fishing tackle, our guns, our camping kits, our tobacco and the things generally that are of major importance to our summer happiness, we have simply got to go out and shop for them ourselves. Our families insist.

Now every family that can get away is going away this summer. The people in the country are going to the city, the people in the city are bound for the country, the mountain people are herding for the valley lakes while the people in the lowlands are taking to the mountain peaks.

The Fourth of July is come and gone. Vacation time is really here. And even if you are not starting away for a month, you are certainly beginning right now to prepare to go.

July and August used to be two dull months. They are now two busy months. The stores that used to drowse through the summertime are all astir. They are busy as nailers preparing for your fun.

Some of them are ready with your outing supplies. Others are holding sales for your summer homes. Still others, in a far-sighted plan are offering you merchandise you will need for months, but because of the season in which it is sold, they are securing for you great economies.

Your clothing stores are giving you good values too right now, and altogether it is the man's shopping season of the year.

You must arrange for the summer pleasure of yourself and your family whether you are going away or staying at home.

Therefore the advertising in this paper these days is most interesting to you. You have left ninety per cent of the spending to your families during the past months. Now ninety per cent of the spending must be done by you. And they are going to be the judges of how good a buyer you are.

The advertising news in this paper will tell you what to buy, where to go and how much to pay. The stores that advertise naturally have the best values because their prices are subject to public comparison. You always know what you are going to pay for everything. And, right now when you are trying to get the greatest amount of fun and health out of every dollar, this is of the highest importance to you.

So watch the advertising carefully each day. It

TYNN-WILLY MEETS AN OLD FRIEND BIFF!

SPORT SNAP SHOTS

Russell Ford, the famous pitcher of the New York Yankees, relates an experience he recently had at Detroit. The Yankees had quarters at the Hotel Cadillac, and Ford was sleeping on the sixth floor. Hearing the fire bell ring one night he hurriedly dressed and rushed for the fire escape. A Polish kitchen maid laden with

packages preceded him and was so slow that Ford kept insisting that she hurry.

"Finally, I don't know what I said, but she threw one of the packages she was carrying into the court below," Ford relates.

"The package contained a hunk of fruitcake and it slammed a policeman in the eye.

"The dignity came running, and he awaited my arrival at the foot of the stairway. He insisted I had thrown the stuff and all the explanation on my part couldn't convince him otherwise. He also insisted it was a brick that had been shot down from the sixth story.

"And his eye—oh, what a sight! I laughed at him and that only made things all the worse. Finally the affair got straightened out. And I wasn't pinched.

"But the cop! He saw the funniest part of it all afterwards and suggested that Manager Wolver-

ton sign the servant as a pitcher."

Pitcher Frank Davis, of the Knoxville, Tenn., team in the Appalachian league, is not blushing with shame over his twirling record this season. In a recent game against Bristol he succeeded in striking out twenty men in nine innings. His record for the season has been better than ten strike-outs per game. Davis is a young North Carolina college pitcher and several scouts have been looking him up.

The Cincinnati Reds have left only five experienced pitchers—Suggs, Benton, Keefe, Fromme and Humphries. These men are depended upon to keep the team in the first division of the National league the remainder of the season.

"Tex" Richard, erstwhile fight promoter, has transferred his attention from pug to cattle. He is now on his way to Buenos Aires. Before leaving he declared that he would devote the next five years to cattle raising in South America. The company which he is the head has purchased 3,500,000 acres of land in Paraguay and will start business with a modest 100,000 head of cattle.

Barney Peity says he is in the heyday of his prime and there was no reason for the St. Louis Browns' discarding him except that St. Louis fans got tired of seeing him around. He is glad to be with Washington, for the Senators look like winners to him.

Mrs. Britton, owner of the St. Louis Cardinals, must have pulled her purse strings wide open to land Pitcher Griner, of the Cleveland team in the Appalachian league. Cincinnati is said to have offered \$2,000 for Griner, and the Boston Nationals would have paid an even larger sum. St. Louis came across with more than either of the others would pay.

As on the occasion of the Johnson-Burns fight at Rush Cutters Bay, Dec. 26, 1908, the interference of the police was the right and proper solution in today's fight. Flynn, early awakened to the fact that his chances were slender, grasped the only alternative, that of roughing it.

As a rough-house miller, the Puebloan is justly entitled to all the medals of past and present days. His nose broken from a terrific right uppercut in the fourth round, another long slit in his left cheek letting his blood spurt out upon the resin bedecked canvas and both eyes glassy from the effect of Johnson's brand of punishment, the fireman surely looked the part of a rank outsider when the gun men burst through upon the scene.

But Flynn was far from through. Out-weighted as he was twenty-two pounds and with the past master of his art, the merciless Johnson, tower-

JOHNSON-FLYNN GO ENDED IN NINTH; YESTERDAY'S BOUTS

Big Contest in Las Vegas Stopped by Police—Wolgaast and Rivers Are Both Knocked Out.

Las Vegas, July 4.—"Exit Jim Flynn," a hopeless "white hope." Battered, but still fighting, balled in blood from head to feet and with a knockout his inevitable finish, the man-eating fireman lost to John Arthur Johnson, king of all the heavies, in the ninth round this afternoon.

Police interference one minute and forty-five seconds after the closing round started brought the titanic clash to a sudden finale, while both men were milling at a terrific pace.

A short, powerfully built wing of the law, Captain Fred Fornoff of the New Mexico mounted police, is the man of the hour. Packing a .44 that spoke louder than words, this official horned through the flag-draped ropes to perform his duty and quickly did it.

As he said later, the bout had ceased to be a contest of boxing skill. Instead wholesale butchery was being committed, with the dusky glove monarch slowly but surely pounding Flynn into the land of nod. Both fighters had resorted to foul tactics, though Flynn was the first offender, biting, clawing, biting, swearing like a madman and repeatedly disregarding the warnings of Referee Ed Smith.

Eight times during the abbreviated run of this heavily boosted combat the third man halted Flynn, on each occasion threatening to disqualify him if he again jammed his blood bean against John Johnson's golden smile. Johnson is warned.

Five times Smith "called" the champ for holding and locking his opponent's rapid fire arms. In short, both parties were guilty. Johnson's bear hug, applied at close range, robbed the chunky Flynn of the use of his most effective weapon. In fighting and to tear himself free from Johnson's clutches, Jim resorted to butting. In this way he got in bad with the New Mexican authorities.

As on the occasion of the Johnson-Burns fight at Rush Cutters Bay, Dec. 26, 1908, the interference of the police was the right and proper solution in today's fight. Flynn, early awakened to the fact that his chances were slender, grasped the only alternative, that of roughing it.

As a rough-house miller, the Puebloan is justly entitled to all the medals of past and present days. His nose broken from a terrific right uppercut in the fourth round, another long slit in his left cheek letting his blood spurt out upon the resin bedecked canvas and both eyes glassy from the effect of Johnson's brand of punishment, the fireman surely looked the part of a rank outsider when the gun men burst through upon the scene.

But Flynn was far from through. Out-weighted as he was twenty-two pounds and with the past master of his art, the merciless Johnson, tower-

ing head and shoulders above him, Flynn never slackened pace.

Wolgaast-Rivers Bout. Los Angeles, July 5.—Ad Wolgaast and Joe Rivers, lightweight champion and challenger respectively, were both knocked out in the thirteenth round of a scheduled twenty-round fight yesterday afternoon at the Vernon arena, and Referee Jack Welsh gave the fight to Wolgaast.

In many ways it was one of the most remarkable fights in the history of the prize ring. As the going sounded to end the thirteenth round of fast and hard milling both men landed stiff upper cuts to the jaws of their respective opponents. Both men went to the floor with a crash and lay as if dead.

Referee Welsh was paying his attention to Rivers, who fell directly in front of him, and methodically counted him out. As he turned to accede Wolgaast, the winner, the champion's seconds sprang into the ring, picked up their champion and carried him to his corner.

Wolgaast did not regain consciousness for more than two minutes, and as he lay in his seconds' arms he had hung over the ropes like a corpse. He was carried to his dressing room before he recovered consciousness.

As a matter of fact, Rivers regained consciousness before the champion, who had won the fight, Rivers was carried to his corner, but walked from the ring, head bowed and greatly disappointed, but able to continue the fight had he not been counted out.

The fight was even all the way. Rivers led easily in the early rounds and Wolgaast in the later ones. Both men were woefully wearied before the final round, as they had been milling fiercely and actively from the very beginning.

Wolgaast was extremely cautious while feeling himself and getting a line on Rivers. Rivers fought viciously, showing better footwork throughout than the champion, but lacked the steam behind his blows that Wolgaast had.

McGoorty is Winner. Benton Harbor, Mich., July 5.—Eddie McGoorty of Oshkosh, Wis., and a claimant for the middle-weight championship of the world gave a great demonstration of his ability at the Eden Springs ball park here yesterday afternoon when he outpointed George ("Knockout") Brown of Cincinnati, the fireman surely looked the over nine rounds.

In order that a test case might be made Sheriff Johnson stopped the battle in the tenth round when the round had three-fifths seconds time to go. At the time the bout was out short Brown was making a great uphill battle. He had roughed and rushed McGoorty about the ring, causing him to slip to the floor, and his countrymen were cheering wildly in hopes of a knockout which would give their man a victory.

As things stood, however, a clean knockout for a count of nine in the fourth round had given McGoorty the decision. It seemed to have a shade over his opponent with the possible exception of the second and last two rounds.

McGoorty, as was predicted, outpointed Brown most of the way, but the Greek at times put up his usual

wild rushing style of battle, which excited the crowd. Brown's best showing was in the second and tenth rounds, but the knockdown he had suffered in the fourth round was too large a handicap for him to overcome. McGoorty proved he possessed a clean knockout punch in his right hand when he sent Brown to the canvas for the count of nine. After Brown had led for the body McGoorty shot a terrific right hook to the jaw, which toppled the Greek to the mat.

LEAGUE LEADERS TO HAVE A HARD FIGHT

Y. M. C. A. Team Still Unbeaten, Will Clash With Fast Hanson Company Nine Tomorrow.

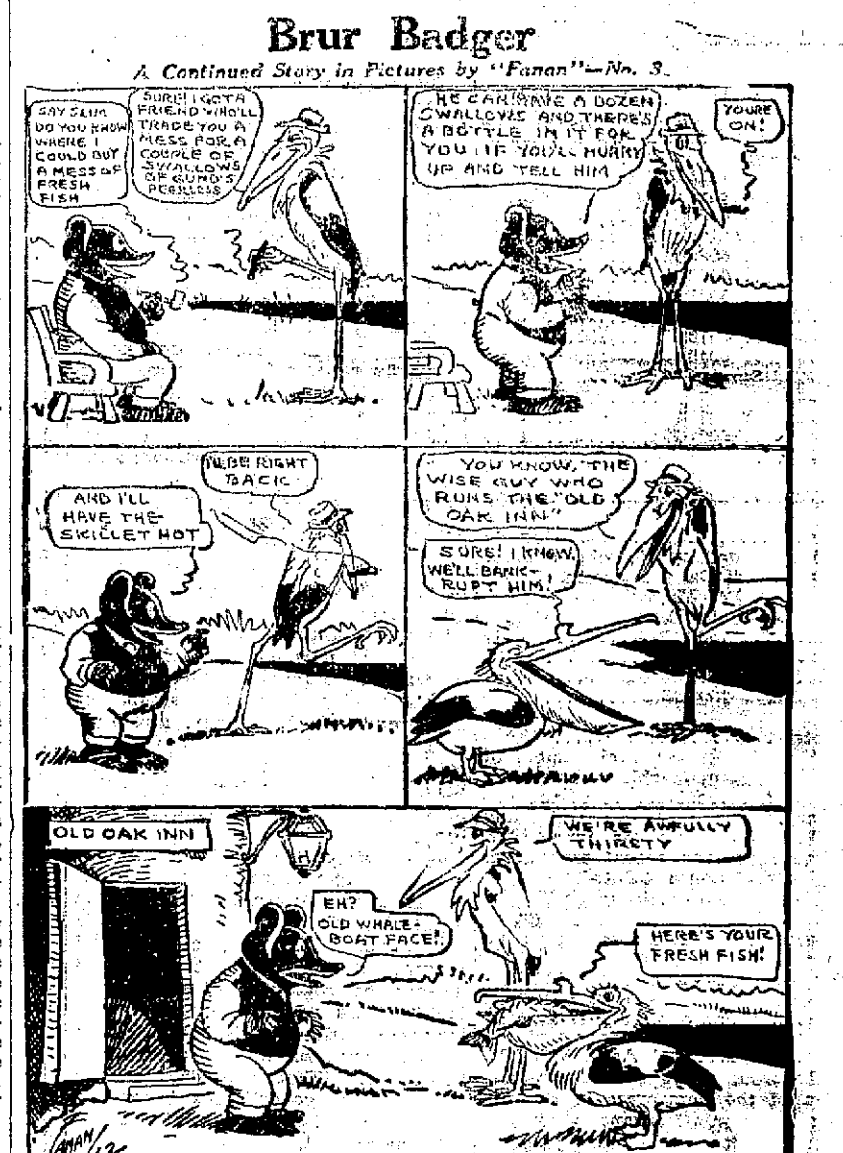

Will the Y. M. C. A. team retain its position at the head of the commercial league after its game with the Hanson company nine tomorrow afternoon at Athletic park. This is a question which commercial league fans are seriously considering and there is little doubt but that this contest will be one of the best staged Saturday according to the schedule. The Hanson team has met but one defeat and that last Saturday at the hands of the Parker Pen team. The cabinet-makers are out for blood but the "Y" athletes are clever players and will exert their best efforts to down the aspiring Hansons.

The Northwestern team and the Gazette will clash in the second game at Athletic park. The Parker Pens are counting on an easy victory over the Lewis team in the first game at the Park Association diamond but the garment-makers may spring a surprise with their strengthened line-up. The second game will be staged between the Machine company and Recorder teams.

To Donate Trophy. H. L. McNamara of the McNamara Hardware Company has donated a trophy to the commercial league team which stands in the second position in the percentage column at the close of the season. Announcement of the character of the gift will be made later.

Her Prayer Answered. The vicar of Brixton, Isle of Wight, said, in church the other day, that a woman, on his advice, knelt at the altar in his church recently and prayed that her two sons in Canada, from whom she had not heard for a long time, might write to her. Soon afterward her sons sent her a cablegram, and a letter followed, stating that they had suddenly felt impelled to send a message home.

NEW BROOKLYN BALL PARK TO BE DEDICATED SATURDAY.

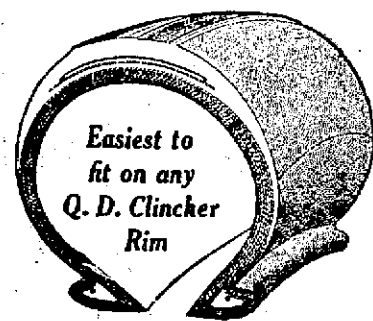

[SPECIAL TO THE GAZETTE.] New York, July 5.—A big bunch of Manhattan baseball fans will journey over to the big burg at the end of the bridge tomorrow to attend the laying of the corner-stone for the future home of the Brooklyn National League club. The Brooklyn club and the New York Giants will attend the ceremony, which will be conducted with all of the pomp and dignity befitting the importance of the occasion.

Ebbets Field, as the new park will be known, is destined to take front rank among the best of the big league baseball plants. The park will be superbly equipped, being in almost the exact geographical center accessible to all of the 4,000,000 or more inhabitants of the big city. The plant will cost about \$175,000. The grandstand of steel and reinforced concrete will be 800 feet long and will accommodate nearly 20,000 spectators. There will be a big club house for the home team and visiting teams and there will be an ornate structure at the entrance to the park.

THE CONVENTION AND AFTER.

Wall Street views the recent convention of the democrats in the following manner. Perhaps they are wrong; still it sounds reasonable.

"There must always be something pathetic in the crumbling of a popular idol. Most of the sympathy is extended to the idol, as being the more conspicuous, but something seems due to the worshipper. What ever Mr. Bryan's future may be, his hold upon the democratic party is lost. Throughout the convention he failed to see his last and greatest reverse, when the politicians were sufficiently astute to conciliate him by giving him everything except what he wanted.

"It was easy to allow Mr. Bryan to write the party platform, aided by Senator O'Gorman, whose qualifications on questions of economics, currency, banking or finance no one has ever had the opportunity of ascertaining. In allowing Mr. Bryan to assume the credit for the platform the democratic delegates were thinking of themselves, and not of Mr. Bryan. They had followed him through three campaigns of disaster. They had damned Alton B. Parker with faint praise in 1904 at his best. They saved their own faces and not Mr. Bryan's; and the concessions that leader received should be interpreted in the light of an obituary notice. De mortuis nil nisi bonum.

"Within the memory of man there has been no party platform that defined the policy of the victors, in the sense the budget of the British Chancellor of the Exchequer outlines the financial policy of the government for the coming year. Platform pledges are made to be broken, or, if they are adroitly drawn, are made to be ignored. The obscure individual who really drew the republican pledge to adjust the tariff to equalize the cost of production here and abroad, must have been clever enough to know that he was propounding an impossibility.

"It is too early to discuss the democratic platform seriously. What is more important is that the convention at Baltimore, often ridiculous, hysterical, childish, yet did something to enlighten public opinion on the political morality of its representatives. It knows now that much advertised candidates for the nomination were never meant to win; that when occasion served, Mr. Bryan could repudiate with virtuous indignation Tammany support to a nomination which he accepted with obsequious gratitude in 1908—when he was the nominee. The voter has learned—or has he?—that the politician seeks popularity and support, not by a right conclusion arrived at by laborious processes of thought and reason, but on what he guesses to be the wind of popular fancy most likely to fill his sails and pockets.

"The net result will be winnowed out in November, and in the meantime let us all get back to work. We have the salaries of these public spirited gentlemen to pay."

PARTY SYMBOLS.

We always picture Uncle Sam as an astute sort of an old chap with white hair, white goatee, striped

trousers, blue coat with long tails and brass buttons. His fair daughter, Columbia, is a dainty Miss with her head decorated with a shield, and wearing a dainty frock of red, white and blue with a few stars stuck around. This pictorial representation of the nation is not entirely new. It is an interesting study to study the association of beasts and birds with nations as symbolical figures. The American eagle, the British lion, the Russian bear, the Austrian German, and other national characteristics are all played upon by cartoonists with more effect than is often bestowed upon the carefully worded writing of the "lead writer" or even a prime minister can equal. In the United States parties also have come to have their popular if not their official symbols—the party of Jefferson, Jackson, and Cleveland following after the patient, thistle-like donkey, and the party of Lincoln, Grant and McKinley led on and off political insight and pictorial skill of the caricaturists find material which they can use with damaging effect upon both candidates and parties, if occasion demands. But ordinarily their note is humorous or mildly satirical.

Occasionally a national or party leader in some swift turn of events becomes identified with some creature of the animal world or some common thing of daily life and thereafter is associated in thought with it. The first Harrison was inseparably associated with a log cabin; Lincoln with the axe and the rails that he split with it; Bryan in his first campaign with the "cross of gold," and more recently Roosevelt with either a broncho-busting, rough-rider horseman's figure or a "Teddy bear" manikin. Now, swift as a flash, taking up the terminology of a clever delineator of the recent Chicago convention, he looms on the horizon as the "Bull Moose"; and every cartoonist, every comic verse writer, every vaudeville show jokesmith is hastening to hit off this latest proof of abiding popular interest in the "faunal naturalist" whose capacity for holding the center of the stage has not waned. Meantime the "progressive republican" movement quasi-officially determines to resurrect the red bandanna handkerchief as a symbol of its brand of democracy, and thus bring into the limelight again a high-colored fabric much valued by horny-handed toilers, and last heard of in politics in days when Thurman was the G. O. M. of Ohio.

It is impossible to deal with the matter as one of reason, for that is an element unessential to effective political symbolism even in its highest ranges. The most obvious and natural attitude toward the question is that of readiness to admire the facility with which the trail is followed once the clue is given. Interest and imitation work with astounding speed. What one day is one man's clever conceit has become a party or a nation's symbol for a historic movement.

Many Rock county cities celebrated the Fourth in a truly royal manner yesterday and next year is Janesville's turn for one of the rousing, old-fashioned kind, with the revival of Colonel Nonesuch and the rest of the features that have made this city famous the country over as an entertainer.

The Boy Scouts "hiked" to Edgerton on Wednesday and are due to return home today. The Scout commissioners have engaged "Captain" Hans Jaekle to act as field scout master during the months of July and August and he will lead the boys on frequent hikes and take them into a permanent camp a little later for two or three weeks.

When Janesville starts to do something they usually go ahead and finish it. Witness to this statement is the oiling of the streets. One never knows where to go next without finding the street closed for oiling. It is a good move and if they would keep it up by fixing the road to the cemetery it would be still better.

Even the heavyweight championship is settled now past any question of a doubt and with the republican and democratic fights decided we must now wait for the football season and the "World" baseball series and election day for further thrills.

Apparently Janesville is not to have a circus this season. Madison was visited by the Ringlings today and from indications they do not intend to come through this section this year at least. The Barnum show is said to be in the east and not coming west at all.

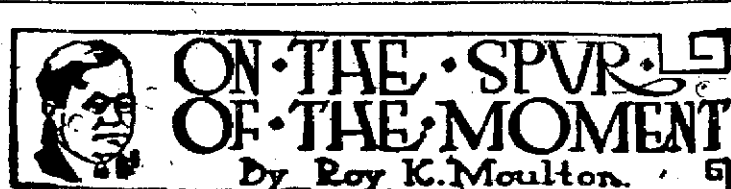

Now that the conventions are all over, the nominees decided upon we can sit down and watch the corn grow and comment on the tobacco and sugar beet crop for the next few months.

Why not turn out Saturday and give the Commercial league your support by witnessing some of the snappy games these teams put up. Double headers each day at two parks. Take your choice.

Instead of speaking of the democratic candidates as Colonels, Judges or even Majors during the coming campaign, you must refer to them as "the Governors—Governor Wilson, Governor Marshall—the two "Govs."

The Bull Moose party is to hold its convention in Chicago in August. They have chosen a hot time for the work of seeking to render the republican party into shreds.

That Garden.
Where is that garden of yesterday, The garden which was our joy? The plot where we labored with hoe and spade; 'Twas pleasure without alloy. Where are the onions and melons we So proudly stuck in the ground? The produce with which we would supply The neighbors for miles around? Where is the garden sassa we would raise Sufficient for all our needs? The hope of the springtime's disappearance, For nothing came up but weeds. Where is the money that we would save, Some hundreds of plunks or more To buy for ourselves a touring car? It's down at the grocery store.

Unnecessary Noises.
Those new spring socks. Joe Bailey, of Texas. Popcorn wagon whistles. Moving picture orchestras. The New York divorce court. Newport society. Amateur vocalists. Bryn Tanguay's press agent. Talkative barbers. Squeaky cork legs.

Foregone Conclusions.
That the new baby next door is going to do, most of its crying at night. That the chauffeur is not going to turn out for you. That the street car lady has her nicker in the bottom of her shopping bag. That the life insurance agent will call again. That the sporting writer will work a little bit of slang into it even if it's an obituary. That the man who spends his time saving cigar coupons is not going to be a millionaire. That the man with the thick eye-glasses is going to get away with most of the jackpot in the poker game.

vous system recovered from the noise and excitement of yesterday?

Possibly Colonel Bryan may now realize that he made a mistake, but he will never admit it any more than his political friend Colonel Roosevelt will.

Some way or other the biggest fish in the lake got away from the ardent fisherman the Fourth for some reason or other.

Heart to Heart Talks.

By EDWIN A. NYE.

INFANT BLASPHEMY.
The small boy—he could scarce have been more than six years of age—was crying.

He stood over a sidewalk grating. Near him was a larger boy who taunted him. The small boy a grief stopped some of the passerby. A woman said to him, "What is the matter, my boy?" With a burst of sobbing the little fellow pointed down below the grating and said, "He threw my ball down there."

A small crowd had gathered, and one man turned to the older boy, saying: "Shame on you! He is smaller than you. Why did you throw his ball down there?"

"Didn't do it. 'Nother fellow done it," responded the youngster. But he stood making fun of the little one and stood on the defensive.

The don't stopped the small boy's sobs. His grief was merged into resentment. He grew suddenly indignant. And with his anger came a great mouthful of bath.

The swearing of the tiny lad was a frightful outpouring. Women, shocked, turned away.

The men laughed. Here was a mere babe uttering imprecations with all the abandon of a rough deck hand.

Where did he learn the swaggering way and the foul anathemas? By listening to his elders, of course—probably in the street, possibly in his own home.

You doubtless have often heard such outbursts from mere children. Stir up the anger of the average street Arab and you will receive a sample. Listen to young boys in their play and you will hear the cursing.

It is abhorrent. But—Have you set an example for some infant who scarce knew what he did when he repeated the unwholy words? If so, out of the mouths of babes you are condemned.

Swearing is blasphemy and is peculiarly of the occult. You will never hear a Buddhist use the name of the Almighty by way of emphasis, and he cannot quite understand how a Christian can take the name of God in vain. Stop it!

It is a useless habit and adds nothing to the force of English speech. If for no other reason—

Stop it lest when you are dead some child may go through the world retailing your profanity.

The Germans have beaten us to it for sheer nerve in the advertising game. One motor firm printed an "ad" on a blank space on 100-mark notes, and they can't stop 'em.

Some Hot Weather Hints.
By shoveling the snow from the walk as soon as it falls you will find the task is not as arduous as when you leave it three or four days. If only one or two parties in a block shovel the snow from their walks it does no good. Everybody must do it. A good way to make the furnace fire burn all night is to bank it with ashes. Ashes are cheap. Bars which have been frozen should be rubbed with snow and bashed in ice water. Never use warm water. Snow cream is a delicious little concoction to serve at an evening function.

Anyone who ventures out of doors in this kind of weather should bundle up well and pay particular attention to the throat. There is nothing better than one of those old-fashioned yarn mufflers that you can wind around the neck four or five times. A good sealskin cap will last several seasons if properly cared for and laid away where the moths can't get at it.

To avoid catching cold when the thermometer is down to 20 below zero, breathe through the nose. Spiked heel shoes are great for traveling over the city sidewalks at this season of the year.

Irresistible Impulses.
To order small steak and German fried potatoes. To kiss Bessie McCoy. To allow the athletic girls to stand up in the street cars. To hand the waiter a plugged quarter for his lip. To pull hard for the home team. To write a soul stirring letter to Mr. Taft.

To mow a lawn with a lawnmower or hot water bottle instead of buying one. To try tomato catsup on apple pie. To say something sarcastic about the fellow who is getting ahead. To walk fast up hill. To turn to the sporting page first. To ask for an aisle seat in the fifth row.

PERSONAL MENTION.

There is more Catarrh in this section of the country than in any other disease put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by Dr. J. C. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 2 to 6 drops. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

"Badger Laundered Shirts are a Joy"

Just the remark of a pleased patron. What he meant was that—The bosoms aren't starched too stiff. The neckbands stand up straight in the size they were originally made. The cuffs are just right—not too stiff, nor yet too limp. They keep clean longer than home-laundered shirts. Whether your wife or the maid irons your shirts, you'll save her time and get more comfort if you have us send for your laundry.

Badger Perfect Dry Cleaning

Is the work of experts, men who have made the work a life study. Dainty, flimsy, summer dresses of embroidery Perfectly Dry Cleaned. Men's light colored summer suits are easily soiled, can be made to look like new here. Phone and our wagon will call.

Now That The "4th" Is Over:

Again we have asserted and ratified our right to life, liberty and the pursuit of bargains. Those of us who have come safely out of the deadly perils of the Fourth—far more widespread than a hundred years ago—are today willing to take advantage of every opportunity to make up the cost of holiday pleasures. The Big Store started right in, this morning, to make this a month of extraordinary offerings—clearing up stocks for the season; taking advantage of manufacturers necessities, creating store events that will compel public attention whenever signs of lethargy appear. It is going to be a month when your personal interest demands that you watch The Big Store.

"How did the bird know that?"

By Values we do not mean poor quality at a cheap price—but the best quality in which there is a fair profit.

We've "touched off" a few specials

Sizzling hot at these prices:

Tomorrow we will have on sale the "La Marca" Cigar, regular 10c value, Special for Saturday and Sunday 5c straight.

LIVESTOCK MARKET HAS A BETTER TONE

Hogs and Sheep Take Advance in Price While Cattle Meet With Strong Demand.

[BY ASSOCIATED PRESS.]
Chicago, July 5.—There was a decidedly better tone on the livestock market this morning with sheep and hogs in good demand at prices somewhat above the average for Wednesday. Hog receipts totaled 15,000 and the market was steady with a five-cent increase throughout the prior list. Sheep were generally ten cents higher and the 8,000 head received were early disposed of. Cattle remained steady with prices a shade higher. Following are today's quotations:

Cattle—Receipts 2,000; market steady, shade up; beefs 5.55@7.90; Texas steers 5.80@7.40; western steers 6.25@7.70; stockers and feeders 4.00@6.65; cows and heifers 2.70@3.35; calves 5.50@8.40.

HAS ACCIDENT HERE

Machine Skids and Crashes Into Curb and Tree, Breaking Rear Wheel.—One Man Slightly Injured.

Skidding on the slippery wet brick pavement at the corner of South Main street and Oakland avenue yesterday noon, an automobile occupied by a Mr. Brady and party, of Madison, crashed over the curb in front of the residence of John Baker, completely demolishing the left rear wheel. The rear end of the machine would have probably swung across the sidewalk had not the axle struck a tree. None of the passengers were thrown out, but one received cuts on the head, and the others were badly shaken up. A fender and brake rods on the machine were bent and other damage was done. It is said that the driver of the car suddenly swung out to avoid collision with another vehicle coming down Oakland avenue, thus causing the accident. The machine was towed to an up-town garage for repairs and replacements. It bore a Minnesota license number 10-582.

The report of the Board of Education for the month of June was received, approved and ordered printed, and the Superintendent of Streets directed to serve notice on the owner of lot 9 in Anderson's sub-division to build cement sidewalk and aprons on the north side of Oakland avenue. Little other business was brought up.

EXPLANATORY NOTES.

The atmospheric pressure is high both on the Atlantic and the Pacific coasts. Low pressures prevail in the middle of the continent. Associated with the low barometric area in the center of the continent is an area of cloudiness, and showery weather, which during the past 24 hours has extended over the greater part of the Rocky Mountains and the plains immediately east of them, and along the northern border from Michigan to the Pacific.

The weather is hot throughout the region east of the Rockies but is relatively cool west of the Rockies, while in the mountains unusually cool weather prevails, minima of 36 degrees to 42 degrees being recorded this morning in southern Utah and Colorado.

HAVE A BAD RUNAWAY ON RETURN FROM CELEBRATION

Three Boys Living Near Fellows Had Bad Smashup Yesterday Afternoon.

[SPECIAL TO THE GAZETTE.]
West Center, July 5.—Three boys whose ages ranged between twelve and sixteen years, had a narrow escape from serious injury in a runaway on their return from the celebration at Footville yesterday afternoon. The boys, Paul and Arthur Fenrich and Ben Kuelz, live near Fellows. Near the Westrock place the horse shied and knelted the buggy into the cave, in which was left by the collapse of the cement bridge. The two Fenrich boys were thrown out, but the Kuelz boy righted itself, but after running forty yards it again tipped over throwing out young Kuelz who was badly hurt, the buggy running over his lower limbs. The horse ran for a mile before stopped, completely demolishing the buggy.

RAIN IS A BOON TO FARMERS OF COUNTY

Tobacco Raisers Especially Are Pleased With Yesterday's Showers Which Will Rush Plant Growth.

Although the showers yesterday afternoon interrupted celebration festivities at a number of points in the southern part of the state, they were none the less welcome and farmers especially are pleased over the brilliant prospect for bumper crops.

Tobacco raisers are especially gratified and with the crop practically in the fields at this time, the soaking rain will give the young plants the start they need after the vitalizing operation of transplanting.

In a few cases there are fields yet to be planted due to lack of plants or for other reasons, but the rain will now rush matters and the close of this week will see the full acreage in first class condition.

Other crops are advanced for this season. The grain which is now filling, promises to be one of the best acres of this crop seen throughout the county.

Next week the haying season will begin in earnest while those who have fields of alfalfa have already cut their first crop.

Corn which should be "knee high by the fourth of July" has more than fulfilled with old-time requirement and across of this crop seen throughout this section easily rank at a ninety or ninety-five percent condition.

Sugar beets, not so popular in Rock county as they have been in former years, are well advanced and the work of thinning has been completed in most instances. Viewing the crop situation as a whole, the Rock county farmer has a very flattering prospect at this stage of the 1912 season, and will doubtless realize handsomely on his investment of time and labor.

SANE CELEBRATION THROUGHOUT COUNTY

FEW ACCIDENTS RECORDED IN
FESTIVITIES WHICH ACCOM-
PANIED PASSING OF NA-
TION'S BIRTHDAY.

BIG DAY AT EDGERTON

Tobacco City Was Host to Large
Crowd Which Was Royally En-
tertained.—Other Celebra-
tions in County.

With the exception of a few minor accidents scarcely worthy of mention, the Fourth of July passed off in Rock county safely and sanely, but with the celebration of the creditable order. In Janesville the day passed very quietly with little noise. The streets were almost deserted at times, the majority of pleasure-seekers taking their departure in the early morning for some of the celebration cities or for outings up the river or to the popular summer lake resorts.

Big Day at Edgerton.

(By a Staff Correspondent.)
Edgerton, July 5.—One of the largest crowds that has ever been seen in Edgerton, attended the Fourth of July celebration given in that city yesterday. The overcast skies of the early morning cleared by eight o'clock and from that time in carriages and automobiles loaded to their capacity began to come into the city by the hundreds. Trains brought large numbers of holiday-makers from Stoughton, Milton Junction, Janesville and other nearby cities, and the streets were thronged most of the time.

The entire program of the day was held at the grounds of the Edgerton Driving Park Association. The Edgerton band, accompanied by the automobile bearing the speaker of the day, Attorney J. M. Clancy, left the Wilson corner at 9:00 o'clock for the race track, joined by the Janesville Boy Scouts at the Carnegie library. Attorney Clancy delivered his address at 9:30 o'clock to an audience which filled every seat in the grand stand and overflowed upon the track and grounds. He spoke briefly and the first ball game on the program, Jefferson versus Whitewater, was called at 10:00.

The game was played on the diamond inside the race track, where it could be watched both from the grand stand and by the crowds which closely lined both sides of the diamond. The teams were well matched and the game was marked by some excellent hitting and good base running. The final score was 7 to 6 in favor of Whitewater.

Roy Worthington, a Janesville rider, was the winner of the five mile motor cycle race held at twelve o'clock, his time being 7:18½. Anderson of Jefferson won second, and Spikler of the same city, third. All the contestants rode P. E. M. machines.

Heavy rain, which fell between one and two o'clock, drove all people in the grandstand and on the grounds to their homes or to find temporary shelter in the racing stables and other buildings. The horses in the 2:30 class half mile race were on the track before the storm broke, but were not able to make a start, and the rain made the track unfit for racing for the rest of the afternoon. The baseball diamond was covered with water and it was necessary to call off the game between the Edgerton Sluggers and the Janesville White Sox, which was to have been called at two o'clock. The showers also made it necessary to eliminate from the program a second motor cycle race and the minor sports for which liberal prizes were offered.

The horses entered in the 2:20 race, together with their drivers, were Red Band, Richardson and Pelletier, Madison; Gray Belle, Vic Hines, Madison; Ambassador, H. E. McNutt, Oxford Mills; The Rex, E. Ray Lloyd, Janesville; Sir Albert, Sam Wileman, Edgerton; Herbert Oh So, Nathan Kelly, Edgerton. A purse of \$150 was held up.

In the 3:00 class, purse \$100, was entered Lucy W. B. M., belonging to William Diebold, Madison; Hattie C., William Stricker, Edgerton; and Jessie C., belonging to L. K. Crissey, of Janesville.

The entries in the free-for-all, one-half mile race, for which a purse of \$250 was offered, were Brown Bessie, Richardson Bros., Madison; Gray Belle, Vic Hines, Madison; Ambassador, H. E. McNutt, Oxford Mills; The Rex, E. Ray Lloyd, Janesville; and Sir Albert, S. Wileman, Edgerton.

The race track grounds were deserted after the rains and the abandonment of the program there, and the entire crowd returned to the city. The band stand was moved down town and the band gave a concert which, with other street diversions, furnished entertainment for the rest of the afternoon. A second band concert was given in the evening and was followed by a dance which was attended by a record-breaking crowd.

Races on Saturday.
Owing to the sudden unfavorable weather the horse races for which \$5,000 is hung up, together with a ball game between the Sluggers of this city and the White Sox of Janesville, together with minor sports and races will be pulled off Saturday afternoon at 1:30 o'clock.

The day's attendance is estimated at from 8,000 to 10,000.

Picnic at Leyden.
[SPECIAL TO THE GAZETTE.]
Leyden, July 5.—Over 700 people enjoyed the picnic which held at the Fish Grove here yesterday under the auspices of the co-operative creamery company. Not an accident occurred to spoil the good time which everyone had. Baseball games, races and other athletic sports were features of the day's program and a dance was enjoyed afternoon and evening with music by Kneff's harp orchestra. The morning ball game between the married and single men resulted in a 2 to 2 victory for the former. The afternoon game was stepped on account of rain.

Celebration at Footville.

[SPECIAL TO THE GAZETTE.]

Footville, July 5.—Footville's 4th of July celebration passed off successfully and a large crowd enjoyed the various attractions which were

supplied for entertainment. The light shower which fell in the afternoon prevented the holding of the speaking and exercises but the remainder of the program was carried out as announced.

The morning ball game between the Footville nine and a Janesville team resulted in a victory for the latter by the score of 8 to 2. The afternoon game between the Beloit Nationals and the Footville White Sox was a victory for Footville, 16 to 5. An accident in the fifth inning was the only casualty to mar the day's festivities. John Fraser, playing for the Footville team, was sliding to second base and broke one of the small bones of his leg, just above the ankle. His injury was immediately attended to and he returned to watch his teammates win the game. A dance in the evening closed the day's entertainment.

Big Beloit Celebration.

[SPECIAL TO THE GAZETTE.]
Beloit, July 5.—Beloit celebrated the 4th of July with true patriotic spirit. Large crowds were attracted for the day's festivities following a thorough advertising campaign through the county and all were rewarded by an excellent entertainment at every hour of the day. The morning parade was one of the features and a large number of attractive floats appeared in line. Band concerts, races at the fair grounds, and a magnificent display of fireworks in the evening, were other features of the celebration. There was a large delegation here from Janesville as well as other neighboring cities.

Milton Celebration.
Milton, Wis., July 5.—The Fourth of July celebration here proved very touch of a success despite the fact that but a brief notice could be given and that a heavy shower in the afternoon interfered with the program. Many were in attendance from neighboring cities and towns and from the countryside. The parade, while not pretentious, proved a novel and pleasing event. The address by Rev. W. A. Leighton was appropriate and effective and made many new friends for the speaker. In the evening a vocal, orchestra and band concert was given and a fine display of fireworks made. Great credit is due the gentlemen who worked faithfully to make this sane celebration so very pleasant and successful.

Malignant Unbelief. Mark 11:20-25.
Golden Text—This is the condemnation, that light is come into the world, and men loved darkness rather than light because their deeds were evil. John 1:10.

(1.) Verses 20-21—Why did the relatives of Jesus think he was beside himself?

(2.) Why does a state of intense religious experience still impress the average man as insanity?

(3.) If the preachers who are indicted with empty pews should become intensely spiritual what effect, if any, would that have upon the size of their congregations?

(4.) Verse 22—Where is the scene of this lesson laid?

(5.) Are Christians who earn their living by teaching religion liable to backslide in their own souls? Give your reasons.

(6.) What reason had these scribes to think that Jesus was possessed with the devil and cast out devils by his power?

(7.) What is that dangerous and subtle power in human nature which enables a man to believe almost anything in the line of his interests or prejudices?

(8.) Verses 23-26—Why may not Satan cast out a small demon in order to make way for a bigger one?

(9.) These scribes admitted the fact of Christ's wonderful miracles; why, therefore, and by what power were they performed?

(10.) Why is it that so many men, in spite of the fact that Christ's claim is so well established, continue to make such foolish attacks on Christianity?

(11.) How do you account for these scribes making such a foolish statement that Christ cast out devils by the power of Beelzebub? (This is one of the questions which may be answered in writing by members of the club.)

(12.) Verse 27—What does Christ propose to do with the devil ("the strong man") in so far as the individual Christian is concerned?

(13.) Verses 28-30—In what respect could this sin of the scribes be called a sin against the Holy Ghost?

(14.) If a man sins against light, knowledge, and continues to reject the only way of salvation, why is it impossible for him to be forgiven?

(15.) As it applies to sinners today, what would you say is the sin against the Holy Ghost which never can be forgiven?

(16.) Verses 31-35—What would you think Christ's brethren and his mother wanted of him?

(17.) If our most loved friends after the flesh want to keep us back from intense spiritual work, what should be our attitude to them?

(18.) Which relations are the holier and happier and why, those after the flesh or those after the spirit?

Good Breeding.
We see a world of pains taken, and the best years of life spent, in collecting a set of thoughts in a college for the conduct of life; and, after all, the man so qualified shall hesitate in his speech to a good suit of clothes and want common sense before an agreeable woman. Hence it is that wisdom, valor, justice and learning cannot keep a man in countenance that is possessed with these excellencies, if he wants that interior art of life and behavior called good breeding.—Steele.

Fast Time on Motor Trip.

A well-known European motorist, stopping in Cairo, Egypt, performed a record feat by driving his car from Cairo to Alexandria, the other day, in ten hours. The distance is 140 miles, and considering that time after time the driver had to zig-zag backwards and forwards across the railway line, there being no proper road, the performance was considered wonderful. The return journey was covered in 8 hours, the following day.

Poor Old England.

The Perfect Laxative For Elderly People

Age has its attractions no less than youth in a more serene and quieter life. But it is this very life of rest without sufficient exercise that brings with it those disorders that arise from inactivity. Chief of these are a chronic, persistent constipation.

Most elderly people are troubled in this way, with accompanying symptoms of belching, drowsiness after eating, headaches and general lassitude. Frequently there is difficulty of digesting even light food. Much mental trouble ensues, as it is hard to find a suitable remedy. First of all the advice may be given that elderly people should not use pills, cathartics or purgatives. What they need, women as well as men, is a mild laxative tonic, one that is pleasant to take and yet acts without gripping.

This remedy that fills all these requirements, and has in addition tonic

properties that strengthen the stomach, liver and bowels, is Dr. Caldwell's Syrup of Pepsin which thousands of elderly people use, to the exclusion of all other remedies. Trustworthy people like Miss M. H. Burling, Ripon, Wis., and J. P. Crider, Kimball, Minn., say they take it at regular intervals and in that way not only maintain general good health but that they have not in years felt as good as they do now. You will do well to always have a bottle of it in the house. It is good for all the family.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar, a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

BOY SCOUTS GIVEN HEARTY RECEPTION

Reach Edgerton Without Mishap—Citizens Show Them Many Courtesies—Return Home Today.

After a bike devoid of mishap and rich in interesting and enjoyable incidents, the Janesville Boy Scouts who left here at 7:40 o'clock Wednesday morning, arrived at Edgerton at three o'clock the following afternoon. Here they were shown every courtesy. Before they reached Indian Ford they were met by two members of the Edgerton Scouts, who came out on their wheels. These escorted the party to the store of Mr. M. B. Fletcher where a two quart jar of lemon juice and a half-dozen worth of sugar were given them with which to make lemonade.

The Scouts were given the best camping ground in the city, the high school athletic field. It is high and dry, and centrally located.

With the further permission of the board of education they were also admitted to the use of the high school gymnasium and lavatory and were told that they could store their equipment and provisions there and use the rooms as shelter in case of storm.

Leaving Janesville by the river road, the Scouts continued along this highway until they reached the stone quarry, the horse and wagon in the meanwhile, having been sent by way of the poor farm. At the quarry the boys turned off toward the upper road, which was found to be in excellent condition after the Shoemaker place was reached. Up to 9:30 o'clock not a rig was met, but later several automobile parties passed them.

During all the time the Scouts were on the march Scoutmaster Jaeke informed them as to the crops that were planted along the road-side, the different kinds of trees, and other natural phenomena. They also received some instruction in military etiquette.

The Scouts had a good time throughout the hike; cracked jokes at one another, played the fife and bugle and did stunts. They were given every liberty until they reached the city limits of Edgerton.

Indian Ford was reached at eleven o'clock. Mr. William Cox of that village met the Scouts on the bridge and invited them to come into his front yard and eat their dinner. His hospitality did not stop with this, for Mrs. Cox "heated water for the boys' coffee and gave them a large bowl of freshly canned cherries. The horse was also fed. Before leaving the boys cleaned up the yard after them, picking up every scrap of paper and orange peel. Although it was not intended to start for Edgerton until three o'clock, the boys were impatient to get there, and the march was resumed at two o'clock. The road was excellent and the Tobacco City was reached an hour later. Practically every small boy had an opportunity to drive the horse at some time during the trip. When Scoutmaster Jaeke saw one showing signs of fatigue he had him take the reins for a while and later on he would give place to another who had become tired.

After camp had been prepared, with two additional tents which Mr. Fletcher helped to secure, the Scouts had their supper, the menu consisting of bacon, bread, wienerwurst, canned beans and coffee. The boys were then dismissed until 5:00 o'clock when Scoutmaster Jaeke took check. This consisted in seeing that all the boys are in their tents. Two guards were posted until 11:00 o'clock, each boy walking post for fifteen minutes. Patrol Leader Rush Berg had charge of the guard. This was divided into reliefs of two men each, and those who served were C. Williams, N. Carle, John Ferguson, George Schiefelbein, Clem Jackman, K. Leffler, Charles Field, Harry Schiefelbein, Earl Wall and Roy Krotz. The other boys had their turn at guard last night. Taps were sounded at 11:00 o'clock.

The first call in the morning was sounded at 5:00 o'clock and reveille fifteen minutes later. All the Scouts answered and then proceeded to get breakfast, the menu being practically the same as for supper. After breakfast most of the boys went to the high school and took a shower bath. Scoutmaster Jaeke then collected twenty-five cents from each boy for provisions and went out to purchase them. The boys were given their freedom for a while and returned at 9:00 o'clock for the assemble call and stored their belongings in the school house. They were just in time to get in behind the band and march to the fair grounds where they spent the day. Mess call was sounded at 1:00 and the boys barely had time to finish their dinner before a heavy rain fell and they hurried to cover the provision wagon with a tent.

The Scouts started early this morning on their return trip to Janesville. They intended to take the river road and will travel leisurely. The hike has been thoroughly enjoyed by the boys and they will be glad to take another soon.

At Moline, Ill., they will stop for a rest and will visit with friends of Mr. Hemming. They expect to be gone about a month, and will go as far down the Mississippi river as is possible in the allotted time. The young men will not attempt to paddle back to this city, but will return on the railroad.

The Coffee Can Is Becoming A Sensitive Subject

A couple of years ago one could get a pound of fairly decent coffee for from 15 to 25 cts. Now that same coffee costs from 25 cts. to 45 cts. per pound and a further raise of ten cents is in prospect.

"There's a Reason"

Four years ago Brazil found that in spite of the fact that it was producing over 90% of the coffee consumed in the United States, its rich planters were not squeezing as much money out of Americans as they could and the Brazilian government was not receiving enough revenue from a product that was one of that country's chiefest products.

And so Brazil determined to levy tribute upon rich and prosperous America, even as the British taxed our tea in olden days; only this modern type of piracy was engineered and executed in a kid glove way.

Certain foreign capitalists (German, English and others) were called into consultation. They devised a scheme called "valorization." They started by bringing our American Congress into removing the import tax on coffee, and that done, Brazil immediately transferred the income to its own treasury by imposing an export tax. This was followed by perfecting a system whereby the Brazilian government could control the output and the price of coffee. The net result has been that Brazil for the last three years has sold just what grades of coffee it wanted to sell, at any price it chose to fix; and in consequence the Brazilian government has shared with a syndicate of foreign money kings a profit of HUNDREDS OF MILLIONS OF DOLLARS, every cent of which has come from the pockets of the American people.

This Is Where YOU Come In

The average coffee drinker knows that coffee is a really harmful drink to most folks. Headache, biliousness, indigestion and other signs of an up-set liver, as well as heart irritation, nervousness and sleeplessness are too evident to most coffee drinkers to permit of their ignorance of that fact.

Economy to Health and Purse, Suggests the new American Drink—

INSTANT POSTUM made in the cup—no boiling required

Made of American wheat and American sugar cane, processed and combined in an American factory by American citizens, this pure food product is roasted just like coffee and has a color and taste much resembling high-grade Java.

A tin of Instant Postum instead of the next pound of coffee from your grocer will quickly prove—

"There's a Reason"

If your grocer does not have Instant Postum, send his name and address and a 2-cent stamp to cover postage, and we will mail you a 5-cup sample tin.

POPULARITY.

By Howard L. Rann.

Popularity is something which never deserts a man until he becomes a candidate for office.

Land or sea will cause it to lose its hold except hocking the wheels of progress with a paving petition. One of the worst hindrances to popularity is to take out a few political or religious convictions and shake them in the face of people who haven't any. This is a very dangerous custom, and has resulted in causing a great many crusaders to go out the sliding with a subdued look. It is a harrowing thing to be unpopular, but it is worse to be so mentally crooked that nobody can tell whether you are for or against. There is a great deal of popularity in circulation which manages to be out of town when the time comes to stand up and be counted. This kind always looks in on the winning side and demands the lion's share of the perquisites and other delicatessen. Some people are so anxious to be popular that they agree with anybody who expresses a bloodred opinion on anything from Wagner's orchestration to the birthplace of Cain's wife. Others do not care for popularity and drive away trade by stepping on their customers' pet theories with a set of debating tools. The best proof of popularity is, to go up against the Australian ballot and come out without having to wait for the official count. Every now and then somebody will break out with an idea which has not been copyrighted and reduce his stock of popularity to the point where he can't get trusted for a bar of soap. This is the fate of all reformers, who never become popular.

WOMAN'S PAGE

HEART AND HOME TALKS BY BARBARA BOYD

Woman Yesterday and Today

IF we want to see just how woman has progressed, as a hopeful sign of the good fortune yet in store for her, it is interesting to read of her day's routine back in the sixteenth century. It is thus described by Fitzherbert in the Book of Husbandry.

"First in a morning when thou art waked and purposist to rise, lyfte up thy hands and blesse thee. And when thou art up and redy, then first sweep thy house, dress up thy dysse board, and settle all things in good order within thy house. Milk thy kye, suckle thy calves, sive up thy mylke, take up thy children and array them, and provide for thy husband's brekefast, dinner, souper, and thy children and servants, and take thy part with them. And to ordeyne corn and malt to the myll, to bake and brue wthal whanne nede is. And mete it to the myll, and see that thou have thy measure again besides the toll, or else the miller deweth not truly with thee, or else thy corn is not drye as it should be. It is a wife's occupation to winnow all manner of corns, to make malt, to wasshe and wringe, to make haye, shere corn, and in time of nede to help drive the plough, to load hay, corn or such other. And to go or ride to the market, to sell butter, cheese, eggs, chekyns, capons, hennes, pigs, geese, and all manner of corns, and also to bye all manner of necessary things belonging to the household, and to make a trewe reckoning and account to her husband what she hath paid."

The wife of those ancient days was somewhat busy, wasn't she? But the woman of today is no less busy. Only, her work is different in kind. And in this is its hopeful promise.

She too rises up, but she is usually too hurried to lyfte up her hands and bless herself. And when she is up and redy, she too sweeps, but it is with vacuum cleaner, these days. She does not bake her bread, for the baker brings it to her door for her. She does not wasshe her clothes for the laundryman calls for them. The shops send home her own and her children's clothes ready-made. She goes to market, via the telephone road. None of the things are less well done than in the olden times, but they are more easily done, so far as she is concerned. Her work today is done largely with her head, and not with her hands. It is a matter of oversight, of management, of exercising executive ability. And this is surely a step ahead of manual labor.

Then, with the time which working in this way leaves her, she can improve herself mentally, or add to her life many pleasures that the toiling woman of the sixteenth century never knew. Even if she had any time she must have been so exhausted physically when her tasks were ended, that she had no energy for things of the mind or spirit.

And this contrast between then and now points to the direction in which woman's life is developing. And it is this that is so full of happy promise. It means that woman's life will broaden more and more, that hard manual labor will be left farther and farther behind, and that her mental and spiritual development is the phase that is now opening, in fact has already opened for her. And this means a fuller, a richer, a happier life in every way.

Probably the woman of two hundred years or so from now will look back upon the women of today and think how hard their lives must have been. But when we of today look back, we can see that womankind is on the road to better things. So we can enjoy the good times we have, and help to make them better for those who are coming after.

A WOMAN'S OBSERVATIONS By Edna K. Woolley

had been turned around.

Suppose the husband had found an affinity and decided to follow love leaving home and wife and children in order to pursue his "right."

Wouldn't she have felt herself an injured wife, and wouldn't she have immediately hied to court for redress of some kind? Wouldn't she have raised the plea that their children needed their father's support? Would she then have been so willing to speak up for the "right" of love? Or would she have insisted upon the rights of a wife and mother, and the right of a husband to fulfill his promise to cherish and provide for those now for love and guidance?

This woman fondly believed that if she were able to secure a divorce from her husband, the affinity would marry her. Yet it seems that he has not promised marriage, and since the shooting (he is still alive) has expressed no desire in that direction—indeed, he has shown no consideration at all for her, though she declares that she will visit him in the hospital before she will visit her husband in the jail.

She claims to love her children.

"These children love me—poor little things!"

And yet this mother is willing to leave them as the result of an intimation for a man not their father.

It is difficult to understand. Nature would seem to be against such a condition, yet it is an altogether too-frequent occurrence that a woman will forsake not only a husband but her little ones, and in order to follow a forbidden love. And where there are a few who do it openly, there are more who do it secretly.

"I believe I have performed a sacred duty and rendered an invaluable service in the protection of the family. The philosophy of affinities and sentimentality is the direct cause of many a tragedy. There ought to be a law to curb and punish those who prey upon married women."

In preaching her "right" to love, as this woman does, one wonders if she ever stops to think what her sentiment would be provided the thing

THE DIFFERENCE.

"I have fought this battle for a long time and it has been so hard to decide. I have fought out the battle between my duty as a wife and my love for Dr. Kelly. And love wins."

"A woman has a right to leave everything in the world for the man she loves. Love is the greatest thing in the world, and it is the right of either man or woman to be with the one who loves and is loved."

Those are the words of a Chicago woman—a wife and the mother of three beautiful little children. They were spoken by her after the shooting of her lover by her husband. Instead of shooting the woman, as many a husband would have done, he shot the man in the case when she was on the point of leaving home with her lover.

The husband, now in jail, has this to say:

"I have fought this battle for a long time and it has been so hard to decide. I have fought out the battle between my duty as a wife and my love for Dr. Kelly. And love wins."

"A woman has a right to leave everything in the world for the man she loves. Love is the greatest thing in the world, and it is the right of either man or woman to be with the one who loves and is loved."

Those are the words of a Chicago woman—a wife and the mother of three beautiful little children. They were spoken by her after the shooting of her lover by her husband. Instead of shooting the woman, as many a husband would have done, he shot the man in the case when she was on the point of leaving home with her lover.

The husband, now in jail, has this to say:

"I believe I have performed a sacred duty and rendered an invaluable service in the protection of the family. The philosophy of affinities and sentimentality is the direct cause of many a tragedy. There ought to be a law to curb and punish those who prey upon married women."

In preaching her "right" to love, as this woman does, one wonders if she ever stops to think what her sentiment would be provided the thing

THE DIFFERENCE.

FORTY YEARS AGO

Janesville Daily Gazette, July 5, 1872.—Independence Day: A superficial glance at the "doings" within our city on yesterday conveys the impression that the subject is rather a lean one for any extended notice. Having no regular order of exercises the people of Janesville were left to their individual resources for pastimes. The circus and menagerie of Adam Forepaugh had drawn a large attendance from the country, so our streets presented a creditable Fourth of July appearance. The immense pavilions were thronged morning, afternoon and evening with delighted audiences and so far as attending a circus may apply to a patriotic observance of the day which other people celebrate, the occasion was full of success. The Park Association had arranged some impromptu trotting and running matches at the park course and there the interest of the sporting fraternity was centered. The first match was for trotting horses, for which Coe Owens entered his bay mare and Schuyler entered White

Stockings. The race was best two in three, White Stockings winning in two straight heats. Time 3:03 and 2:57½. A half mile dash for running horses was participated in by Dr. Martin's grey horse, Long Barney, Charles Williams' bay horse, Grapeshot, Long Barney took the race in 53 minutes. The third display was for trotters and the contest was between Coe Owens' General Grant and Marshall's black horse. General Grant won the first two heats in 2:46 and 2:37½. A ball by the Catholic Temperance Society was the event of the evening. It was held in Mitchell's hall.

Upset: A buggy belonging to P. Decker, and occupied by its owner and a lady, was turned over near the corner of Jackson and Milwaukee streets, last evening, by a runaway horse, which rushed through an alley of Mitchell's block, with a post attached to the hitching strap, and collided with the Decker establishment. No injury was done to the occupants of the carriage, though the vehicle was somewhat damaged.

THE MAIDEN.

There was a fair maiden named Bato
Who once angled to capture a mate;
She caught Mr. Fish
And thus got her wish—
Then the fish and the bait met their fate.

UNCLE WALT The Poet Philosopher

BY WALT MASON

I found in the years that are past
That switching around is no use;
For the cobbler should stick to his last,
And the tailor should stick to his goose.
In winding as I wound—at least
So my partisans held—and still
I kept fooling around at tasks of a
different kind, for which I had no
sort of knack; ah, me! I was stupid

and blind! Oh, wally! Alas and alack!
I worked for a while in a store, I
loafed for a time in a mill; I dug out
some valuable ore from the side of
virtuosity; I wrought with a track
laying crew, I worked a snail on the
street, and poorer and poorer I grew,
until I had nothing to eat. When I'd
blown in the last
STICK TO ROCKS, I said: "I'll
YOUR TRADE go back to my
trade; when it
comes to the winding of clocks, all
rivals are put in the shade." Since
then I have prospered, you bet, and
I've my own wisdom to thank; I
haven't a cure or a debt, and I have
a roll in the bank. And thousands
are fooling along, and putting them-

selves in a plight; they're doing the
task that is wrong, they pass up the
one that is right. Don't tackle the
job you do worst, if you'd enjoy com-
fort and peace, for the cobbler should
stick to his last, and the tailor should
stick to his geese.

Heroes Found in Daily Life.
The world has no room for cowards.
We must all be ready somehow to
toil, to suffer, to die. And yours is
not the less noble because no drum
beats before you when you go out
into your daily battlefields, and no
crowds shout about your coming when
you return from your daily victory or
defeat.—R. L. Stevenson.

CHAPTER XIV.

The Lover and the Husband.

"A. H. madame," said D'Artagnan as he entered by the door which the young woman had opened for him, "allow me to tell you that you have a bad sort of a husband there."

"You have then overheard our conversation?" asked Mme. Bonacieux.

"How?"

"By a mode of proceeding known to myself."

"And what did you understand by what you heard us say?"

"That it gives me an opportunity of placing myself at your service. The queen wants a brave, intelligent, devoted man to make a journey to London for her. I have at least two of the qualities you stand in need of, and here I am."

Mme. Bonacieux made no reply, but her heart beat with joy, and secret hope shone in her eyes.

"And what pledge can you give me," asked she, "if I consent to confide this message to you?"

"My love for you. Do you know Athos, or Porthos or Aramis?"

"No; who are these gentlemen?"

"Three of the king's musketeers. Do you know M. de Treville, their captain?"

"Oh, yes, I know him; not personally, but from having heard the queen speak of him more than once as a brave and loyal gentleman."

"You are not afraid that he would betray you for the sake of the cardinal?"

"Oh, no, certainly."

"Well, reveal your secret to him and ask him whether you may not safely confide it to me."

"But this secret is not mine."

"Why, you were going to confide it to M. Bonacieux," said D'Artagnan, with an offended tone. "Put me to the proof."

Madame Bonacieux looked at the young man, restrained for a minute by a last hesitation, but there was such an ardor in his eyes, such persuasion in his voice that she felt herself drawn on to place confidence in him.

"Listen," said she. "I yield to your protestations. I yield to your assurances. But I swear to you that if you betray me and my enemies pardon me, I will kill myself while accusing you of my death."

"And I, I swear to you, madame," said D'Artagnan, "that if I am taken while accomplishing the orders you give me, I will die sooner than do anything or say anything that may compromise any one."

Then the young woman confided to him the terrible secret. D'Artagnan was radiant with joy and pride. This secret which he possessed, this woman whom he loved!

"I will go," said he. "I will go at once."

"How! You will go?" said Mme. Bonacieux; "and your regiment, your captain?"

"By my soul, you have made me forget all that, dear Constance! Yes, you are right—I must obtain leave of absence. I will go this very evening to M. de Treville, whom I will request to ask this favor for me of his brother-in-law, M. Desseasart."

"But you have too much no money."

"Perhaps is too much," said D'Artagnan, smiling.

"Then," replied Mme. Bonacieux, opening a cupboard and taking from it the very bag which half an hour before her husband had caressed so affectionately, "take this bag."

"The cardinal's?" cried D'Artagnan, breaking into a loud laugh. "It will be a doubly amusing affair to save the queen with the cardinal's money."

"You are an amiable and a charming young man," said Mme. Bonacieux. "Be assured you will not find her majesty ungrateful."

"Oh, I am already more than recompensed!" cried D'Artagnan. "I love you, you permit me to tell you that I do. That is already more happiness than I dared to hope for."

"Silence!" said Mme. Bonacieux, starting. "Some one is talking in the street. It is my husband!"

D'Artagnan ran to the door and drew the bolt.

"He shall not come in before I am gone," said he, "and when I am gone you can open the door for him."

"But I ought to be gone too. And the disappearance of his money—how am I to justify it if I am here?"

"You are right. We must go out."

"Go out? How? He will see us if we go out."

"Then you must come up into my room. You will be as safe as in a temple. I give you my word as a gentleman."

"Let us go, then. I place full confidence in you, my friend."

Once in his apartment, for greater security the young man barricaded the door. They both went up to the window, and through a slit in the shutter they saw M. Bonacieux talking with a man in a cloak.

At the sight of this man D'Artagnan started, half drew his sword and sprang toward the door. It was the man of Meung.

"What are you going to do?" cried Mme. Bonacieux. "You will ruin us all!"

"But I have sworn to kill that man!" said D'Artagnan.

"At this time your life is devoted and does not belong to you! In the name of the queen I forbid you to go! In my own name I beg you! But listen; they appear to be speaking of me."

M. Bonacieux had opened his door and, seeing the apartment empty, had returned to the man in the cloak, whom he had left alone for an instant.

"She is gone," said he. "She must be gone back to the Louvre."

"Is the young guardsman at home?"

"I do not think he is, but I will ask his servant."

Bonacieux went into the house again, passed to D'Artagnan's door and knocked.

No one answered. Porthos, to make a greater display, had that evening borrowed Planchet. As to D'Artagnan, he took care not to give the least sign of existence.

At the moment the finger of Bonacieux sounded on the door the two young people felt their hearts bound within them.

"There is nobody within," said Bonacieux.

"Never mind. Let us walk into your apartment. We shall be better there than in the doorway."

"Oh," whispered Mme. Bonacieux, "we shall hear no more!"

"On the contrary," said D'Artagnan, "we shall hear the better."

D'Artagnan raised the loose boards, spread a carpet, went down upon his knees and made a sign to Mme. Bonacieux to do as he did, stooping down toward the opening.

"And you think that your wife"—said the unknown.

"Is returned to the Louvre. The news I brought you is valuable."

"Very, my dear Bonacieux. I don't attempt to deny it."

"Then the cardinal will be pleased with me?"

"No doubt he will. Are you sure that in her conversation with you your wife mentioned no proper names?"

"No; she only told me she wished to send me to London to further the interests of an illustrious personage."

"Never mind," continued the man in the cloak. "It was very silly of you not to have feigned to accept the mission. You would now be in possession of the letter. The state, which is now threatened, would be safe, and the cardinal would have given you letters of nobility."

"Did he tell you so?"

"Yes."

"Be satisfied," replied Bonacieux. "My wife adores me, and there is still plenty of time."

"What do you mean by its being still time?" asked the man in the cloak.

"I will go to the Louvre, I will ask for Mme. Bonacieux, I will tell her I have reflected upon the matter, I will renew the affair, I will obtain the letter and I will run directly to the cardinal's."

"Well, begone then! Make all possible haste. I will shortly come back to learn the result of your plan."

The unknown went out.

"Base old fool!" said Mme. Bonacieux, addressing this affectionate epithet to her husband.

"Silence," said D'Artagnan.

A terrible howling interrupted these reflections of D'Artagnan and Mme. Bonacieux. It was her husband who had discovered the disappearance of his money bag and was screaming out,

"Thieves, thieves!"

"Oh," cried Mme. Bonacieux, "be will rouse the whole quarter!"

Bonacieux cried for a long time, but as such cries on account of their frequency did not attract much notice in the Rue des Fossevoivre, finding that

nobody came, he went out.

"Now he is gone, it is your turn to get out," said Mme. Bonacieux. "Courage, my friend, but, above all, prudence, and think what you owe to the queen!"

"To her and to you!" cried D'Artagnan. "Be satisfied, lovely Constance. I shall prove worthy of her gratitude. But shall I likewise return worthy of your love?"

The young woman only replied by the beautiful glow which mounted to her cheeks. A few seconds after D'Artagnan went out in his turn, enveloped likewise in a large cloak, which concealed the sheath of a long sword.

D'Artagnan went straight to the hotel of M. de Treville. He had reflected that in a few minutes the cardinal would be warned by this cursed unknown, who appeared to be his agent, and he judged, with reason, he had not a moment to lose.

M. de Treville was in his saloon with his habitual court of gentlemen. D'Artagnan, who was known as a familiar of the house, went straight to his cabinet and sent word to him that he wished to see him upon an affair of importance.

D'Artagnan had been there scarcely five minutes when M. de Treville entered. At the first glance and by the joy which was painted on his countenance the worthy captain plainly perceived that something fresh and extraordinary was on foot.

"You will pardon me, I hope, for having disturbed you when you know the importance of my business," said D'Artagnan.

"Speak, then. I am attentive."

"It concerns nothing less," said D'Artagnan, lowering his voice, "than the honor, perhaps the life, of the queen."

"What do you say?" asked M. de Treville, glancing around to see if they were alone.

"I say, monsieur, that chance has rendered me master of a secret."

"Is this secret your own?"

"No, monsieur; it is her majesty's."

"Are you authorized to communicate it to me?"

"No, monsieur."

"Why, then, are you about to betray it with respect to me?"

"Because without you I can do nothing, and I was afraid that you would refuse me the favor I am come to ask if you were not acquainted with my object."

"Keep your secret, young man, and tell me what you wish."

"I wish you to obtain for me from M. Desseasart leave of absence for a fortnight."

"When?"

"This very night."

"You are leaving Paris?"

"I am going on a mission."

"May you tell me whither?"

"To London."

"Has any one an interest in preventing your arriving there?"

"The cardinal, I believe, would give anything in the world to prevent my success."

"And you are going alone?"

"I am going alone."

"In that case you will not get beyond Bondy. You will be assassinated. In enterprises of this kind, in order that one may arrive, four must set out."

"Ah, you are right, monsieur," said D'Artagnan. "But you know Athos, Porthos and Aramis, and you know if I can dispose of them."

"Without confiding to them the secret which I was not willing to know?"

"We are sworn, once and forever, to implicit confidence and devotedness against all proof; besides, you can tell them that you have full confidence in me, and they will be more incredulous than you."

"I can send to each of them leave of absence for a fortnight, that is all. Athos, whose wound still gives him inconvenience, to go to the waters of Forges; to Porthos and Aramis, to accompany their friend."

"Thanks, monsieur; you are a hundred times kind!"

"Begone, then, find them instantly and let all be done tonight. Hal but first write your request to M. Desseasart."

D'Artagnan drew up his request, and M. de Treville, on receiving it, assured him that by 2 o'clock in the morning the four leaves of absence should be granted.

"Have the goodness to send mine to Athos' residence. I should dread some disagreeable encounter if I were to go home."

"I will, Adieu, and a prosperous voyage!"

D'Artagnan's first visit was for Aramis. He found Aramis this evening sitting up, but melancholy and thoughtful.

After the two friends had been chat-

ting a few instants a servant from M. de Treville entered bringing the leave of absence for Aramis.

"What does all this mean?" asked Aramis.

"Pack up all you want for a journey of a fortnight and follow me."

"But I cannot leave Paris just now without knowing"—Aramis stopped.

"What is become of her? I suppose you mean"—continued D'Artagnan.

"Become of whom?" replied Aramis.

"The lady who was here, the lady of the embroidered handkerchief."

"Who told you there was a lady here?" replied Aramis, becoming as pale as death.

"I saw her."

"And you know who she is?"

"Well, I think I can give a pretty good guess at least."

"Then," said Aramis, "since you appear to know so many things, can you tell me what is become of that lady?"

"I presume that she is gone back to Tours. She was in fear of being arrested."

"Why did she not write to me then?"

"Because she was afraid of compromising you."

(To be continued.)

In these days of high cost of living, a medicine that gets a man up out of bed and able to work in a few days is a safe and valuable remedy. John Heath, Michigan Bar, Cal., says: "I had kidney and bladder trouble for nearly six years, and was confined to my bed, unable to turn without help. Soon after I commenced using Foley Kidney Pills and was relieved at once." His example is worth following. Foley Kidney Pills will do for others just as much as they have done for John Heath. Try them. Badger Drug Co.
